

## Intel® Teach Professional Development

Course	Description
<b>For Classroom Teachers and Administrators—Self-paced or Facilitated</b>	
<b>Elements</b>	Series of compelling short courses that provide deeper exploration of 21st century learning concepts, such as project-based approaches, assessment, collaboration, and leadership.
<b>For Classroom Teachers—Facilitated</b>	
<b>Essentials</b>	Face-to-face training on how to integrate technology into existing classroom curricula to promote student learning.
<b>Essentials Online</b>	Training on the same skills as the Essentials Course, through a blend of face-to-face and online training.
<b>Thinking with Technology</b>	Training on effective technology integration skills using online thinking tools to enhance students' higher-order thinking.
<b>For School Administrators</b>	
<b>Educational Leadership in the 21st Century</b>	An e-learning facilitated course for administrators focused on leadership in promoting, supporting, and implementing effective technology integration in schools.
<b>For All Educators</b>	
<b>Teachers Engage Community</b>	An online community for Intel Teach participants that focuses on core topics in the courses.
